MasTex Imaging Consultation

MasTex Imaging is the premier New England provider of Mobile Dysphagia Consultations. Our services include:

- A Modified Barium Swallow Study (MBSS)
- An Esophageal Assessment to Stomach
- A Physician Consult

At your doorstep, our experienced and highly trained Physicians and Speech Pathologists perform a comprehensive consultation, assessing your patient's:

- Medical History
- Aspiration Risk
- Pneumonia Risk
- Diet Levels
- Patient and Family Quality-of-Life/
End-of-Life Concerns

They will also discuss the impact your current medications may have on swallowing behavior.

Immediate Results Include:

- Physician Consult Report
- Radiology Report
- Speech Pathology Report
- DVD of the Studies

Why Mobile?

- We come to you! Dependable and timely appointments
- On-the-Spot treatment recommendations
- Immediate recommendations of diet levels
- Cost-effective – we remove the hassle and cost of transportation
- Early detection of oral, pharyngeal, and esophageal swallowing difficulties
- Recommendations for considerations of medication changes, if applicable

Insurance Coverage

Our friendly scheduling team is here to ensure that your patient is seen in as timely a manner as possible.

We accept Medicare and most major insurance plans. We are happy to help obtain authorization for managed care patients.

We Welcome You

Family, loved ones and the patient's health care providers are welcome to accompany the patient on the Mobile Medical Clinic in order to observe the study. It is a great opportunity to address questions or concerns directly with our clinical team.

Our medical team is dedicated to treating each and every patient with dignity, compassion and respect. The experience is designed to be hassle and worry free!
